ISSUE AND AMENDMENT RECORD

Title	Issue	Date	Amendments
Method of Stating Test and Calibration Results and Compliance with Specification (APLAC TC004)	1	January 2015	Initial Issue

**METHOD OF STATING TEST AND CALIBRATION
RESULTS AND COMPLIANCE WITH
SPECIFICATION**

PURPOSE

This document gives guidelines on the method for stating test and calibration results and compliance with specifications. This document is based on ILAC-G8 1996, and includes amendments found to be necessary when using ILAC G8. The major amendments include the addition of:

- (a) treatment of non-numerical results (clauses 1.1.3, 1.1.5),
- (b) an explanation for the ratio of the uncertainty of measurement to the specified interval (clause 1.1.6),
- (c) reporting of results obtained from tests on samples,
- (d) an example in clause 2.3.

This document also requires that the level of confidence of uncertainty for numerical results be reported (clause 1.1.3). When ILAC-G8 1996 has been revised, the need for this document will be reviewed.
